

AIRWAYS WORKSHOP
WEDNESDAY 17 FEBRUARY
0800 - 1200

The SAS/Coda Airway Workshop will give you expert-led, hands-on coaching in four crucial areas of airway management, with interactive skill stations and immersive simulation.

EXPERT FACULTY

We have gathered an amazing faculty of anaesthetists, intensive care specialists, pre-hospital and emergency physicians, paramedics, anaesthetic nurses and an ENT surgeon to guide you through the stations in this 4-hour workshop.

STATIONS

1. Nasendoscopy and fiber optic techniques, including intubation via supraglottic airways
2. Can't Intubate, Can't Oxygenate (CICO) rescue
3. Adult and paediatric videolaryngoscopy
4. Airway algorithms including the Vortex approach - (immersive simulation)

The workshop is accredited for CME, and also as an ANZCA CICO Course.
